RENO REFRACTORIES, INC
RENO NC GUN 6059

## TECHNICAL DATA SHEET

RENO NC GUN 6059 is a high alumina, silicon carbide no cement gunning mix. This material has high density, low porosity, high strength and excellent resistance to aluminum, iron, fluxes, alkali attack, thermal shock and oxidation. The material is designed to be installed by gunning. Applications include resurfacing aluminum furnace walls and repairing iron ladles
