RENO REFRACTORIES, INC
RENO PUMP 80 LWFF

## TECHNICAL DATA SHEET

RENO PUMP 80 LWFF is a strong $2800^{\circ} \mathrm{F}$ insulating castable that can be installed by casting, pumping or shotcreting. Volume stability and low thermal conductivity gives a thermally efficient lining with minimal cracking.

RENO PUMP 80 LWFF has a density of 80-90 pounds per cubic foot.
