

TECHNICAL DATA

RENO REFRACTORIES

RENO WATER BASE CLAY

Reno Water Base Clay is highly pliable silica, heat setting plastic design for general maintenance of blast furnace runners, skimmers and tuyeres. The product is packaged in 3000 pound pallet boxes with individually wrapped slugs.

Green Bulk Density (as rammed) 130 pcf

(Chemical analysis, after calcined in oxidizing conditions)

Al₂O₃	SiO₂	Fe₂O₃	Carbon
11.7	80.1	0.9	5.6

269800- 6/11/14 hsz

The data presented represents typical average results obtained by testing under ASTM or other acceptable procedures as required. They are subject to normal variations and should not be used for specification purposes.
